AMENDMENT

Sir:
In response to the Office Action of February 6, 2003, please amend the aforementioned application as follows:

IN THE CLAIMS:

Please replace claims 10-22, 25 and 30-32 with the following amended claims:

30
10. (Once Amended) A sprocket for a roller or bushing chain and sprocket system, the sprocket comprising:
a plurality of teeth disposed about the circumference of the sprocket, the sprocket teeth each having a flank profile; and
at least a first flank profile and at least a second flank profile, the second flank profile being different from the first flank profile, the first and second flank profiles arranged in a pattern effective to reduce noise generated by contact between the chain and the sprocket.
